MSDN Magazine Microsoft. Browse Categories About Contact FAQ Contact Support Documentation License Add to My Favorites I use I use MSDE/MSSQL server - Old Client is enough. you can use internet explorer - that is where I use it. I know there is a proxy solution also. I just cannot find a version. 64 Bits MSDE 11 = 64 Bits Windows Media Encoder 11 - Pc / Win XP SP3 (I have a dual-boot PC with Windows XP and Windows 7 on this laptop) I can't use any of the above mentioned programs, because on my computer I have Windows Media Encoder 11 installed, and I need to use 32-bit Microsoft Media Encoder 11 to build my project. If anyone knows of a way to force the MSDE to create a 64-bit program, I would love to know how. If I download the WinDev (64-bit) project, and try to run it, I get the message "Windows Media Encoder 11 not found". Anyone? 35 Oct 11, 2006, 09:10 AM Lukas Greinacher said: I use MSDE/MSSQL server - Old Client is enough. you can use internet explorer - that is where I use it. I know there is a proxy solution also. I just cannot find a version. Beacon (electronics) A beacon is a wireless signal broadcasting device used in the tracking of ships, aircraft, vehicles, and people. A device that broadcasts a signal used to identify a specific location or object is a beacon. Beacon devices can be fixed, portable, or wireless. Beacons typically include a unique identification number that is registered with a central database, such as a database for shipping containers or aircraft. Some beacons may also include a Global Positioning System (GPS) receiver or a serial number. Beacons may use RF, Infrared (IR), or Laser technology. Types of beacons Beacon devices vary in form, function, price, and use depending on the specific beacon application. Beacon devices may be installed and fixed in place or portable. Beacon devices may be used to track a single object or group of objects. Beacon devices may be used on an indoor or outdoor surface or in water. Beacon devices may be used in critical areas, such as airport runways, border crossings, railroad crossings, or active military areas. The beacon registration and authentication 82157476af
